IMPORTANT: THIS IS A LEGAL DOCUMENT

Please read and understand before signing. If you have any questions please ask us or consult an attorney.

River Run Outfitters LLC would like you to know that a river trip can be dangerous. Unlike a theme park setting, your adventure will take place in a natural environment over which River Run Outfitters LLC has no control. The same elements that contribute to the unique character of river running, such as constantly changing water levels, can cause loss or damage to equipment, personal injury, or in extreme cases, permanent trauma or death. We simply want you to know in advance what to expect, and to be informed of some of the possible risks. We ask that you read this, sign it, and return to our office.

ACKNOWLEDGEMENT OF RISK

As a participant in a river trip, you will be totally and solely responsible for your own movement and safety while on the river. Because your activity takes place in the "great outdoors", you will be solely responsible for your own rescue.

Although accidents are rare, injury may be sustained by (but not limited to) carrying or handling the watercraft, walking or climbing along the riverbank, diving or jumping in to the river, getting into or out of the watercraft, falling out of the watercraft, becoming entangled in or pinned against rocks, branches, logs, down trees, or low water bridges. Of course drowning is always a possibility when around water.

As with any water sport, you may be exposed to periods of sun, wind, rain, lightning, exposure to cold water, insects, animals and plants, all of which may also cause injury, trauma, or death.
